ENTERTAINMENT & ATTRACTIONS

Sustainable Agriculture Showcase

In what we think is an Australian first, the Hamilton Agricultural Show Society in partnership with the Derwent Catchment Project are showcasing the sustainable agriculture practices farmers across the Derwent Valley and Central Highlands are using.

We want people to see the many sustainable practices farmers are already using - and in many cases have been in practice for generations.

We're asking farmers in the Derwent Valley and Central Highlands to send in short videos or before-and-after photos of their sustainable practices to share with show patrons. Use this QR code to go online and see their photos, and head to the bar on the hour to hear farmers being interviewed by Derwent Catchment Project.

This is a first year we've held this, so we could get heaps of entries or we could get none - that's the joy of something new!
